KEVIN **CHEN**

kevinchen@nyu.edu • 646-207-0897 • kev-chen.me • linkedin.com/in/kev-chen0 • github.com/kev-chen0

EDUCATION

New York University Tandon School of Engineering, New York, NY *Expected Grad: May 2022*
- Bachelor of Science, Computer Science, Minor: Cyber Security, Business Studies
- GPA: 3.5
- Relevant Coursework: Intro Python · Data Structures & Algorithms · Object-Oriented Programming

SKILLS

- **Programming:** (Advanced) Python · Java · Swift | (Basic) C++ · JavaScript · HTML/CSS
- **Software:** Git · XCode · Firebase · Google Cloud Platform · MS Office
- **Platforms:** Arduino & Raspberry Pi (IoT) · iOS App Development · Windows · macOS · Linux

EXPERIENCE

NYU-X Research Lab, New York, NY *May 2019 – August 2019*
Research Fellow
- Led research project to develop robot-based learning system using OptiTrack motion capture system, Python, and iOS app to teach geometry to middle-school children at NYU-X Lab, College of Nursing
- Assisted in research project to develop computer vision system for individuals with dementia to get dressed

NYU EG1003 RAD Project, Brooklyn, NY *January 2019 – May 2019*
Project Manager
- Developed assistive navigation technology for visually impaired individuals by implementing Raspberry Pi, Python, and Google Cloud in a team of 3 first-year students
- Managed 10-week design project by preparing milestone presentations, weekly reports, and demo video

PROJECTS

Tangible Activities for Geometry, NYU-X Lab Research Project *May 2019 – August 2019*
- Developed functioning interface for robotic-assisted geometry system using Python & MQTT by designing iOS mobile application and integrating RabbitMQ and OptiTrack Motion Capture at NYU-X lab

SiteSeer, NYU EG1003 RAD Project *January 2019 – May 2019*
- Configured Google Cloud & Camera/Sensors to operate on Raspberry Pi to provide feedback such as using image recognition and learning by utilizing Google APIs to provide directions and write an algorithm
- Created iOS App to obtain GPS location from the phone, provide live-feed, speech services (speech-to-text to get destination from user, text-to-speech to give user instructions) using Python

iOS Ping Pong App, iOS Bootcamp *January 2018 - February 2019*
- Developed proof of concept iOS game in Swift featuring 2-Player / Computer , and background music

ACTIVITIES

- **Teaching Assistant**: Mentor students in introductory engineering course (EG1003) in open-ended projects
- **VIP Self-Drive**: Work on computer vision system to develop self-driving car
- **CS Tutor**: Tutor students in Python (CS 1114) and Data Structures & Algorithms (CS1134)
- **PolyBots**: Utilize Arduino & Raspberry Pi to build mini-robots for friendly competitions

AWARDS

- **TechFestival Hackathon** 2019: 1st (out of 18 teams) at largest CUNY hackathon & Best Google Cloud Hack
- **NYU EG1003 RAD Project** 2019: 2nd (out of 25 teams) & Nick Russo Award Winner for Outstanding Design
